SUMMARY

A senior front-end developer with 6 years of experience in building web applications, only interested in onsite work. I help companies around the world to design and implement their software solutions. Drop me a message if you think my expertise could help your organization!

EXPERIENCE

Lead Front-end Developer | [CashGate Information Technology](#) | Dubai, UAE 10/2023 - 02/2024

- Led front-end development efforts for client projects, working closely with cross-functional teams to deliver high-quality web applications.
- Guided best practices in front-end architecture, modern React design patterns and testing methodologies for 3 junior developers, who each had 2+ projects merged into main branch per month.
- Performed comprehensive browser and device testing to ensure cross-browser compatibility and optimal performance.
- Applied GraphQL queries and data sources to enable live updates and seamless user interactions.
- Actively participated in code reviews, providing constructive feedback and suggestions for improvement.
- Utilized Chrome Lighthouse to audit, measure, and improve application performance, accessibility, and best practices, driving continuous frontend optimization.

Front-end Developer | [Super Future Technology](#) | Dubai, UAE 02/2023 - 10/2023

- Developed and maintained a crypto wallet application using React.js, Umi.js, and Ant Mobile Design, supporting 10,000+ active users.
- Collaborated with designers and back-end developers to implement user interface designs and ensure seamless integration with backend functionalities.
- Integrated Next.js frontend with REST APIs and managed CMS content via Strapi.
- Optimized website performance through code optimization, and caching techniques.
- Engineered 34 reusable UI components for the design system, cutting down front-end development time by 10% across three key projects, while also ensuring brand consistency.
- Successfully finalized a Vue.js frontend for a crypto-related dashboard and management system.
- Produced a payment system UI using GSAP animation effects.

Frontend Engineer | [Acksession](#) | Tampa, Florida, USA 01/2022 - 02/2023

- Using React.js, TypeScript, I wrote a clean, scalable, maintainable and high quality code resulting in vast number of features, improvements, bug fixes, tests, business value.
- Improved the performance, architecture, testing, user experience, and security of the React applications.
- Joined efforts with product managers, architects, and designers to achieve the desired user experience.
- Synchronized closely with backend developers and data teams for seamless integration.
- Implemented state management using Redux, Redux Thunk, and Redux Saga for complex asynchronous flows.
- Structured global state and middleware for scalable, predictable, and maintainable updates.

- Worked alongside top talent at RT² Real Time Technologies Inc.
- Built UI using Material-UI and Bootstrap for consistent and responsive interfaces.

ReactJS / NodeJS Developer | [Tahaluf Al Emarat](#) | Abu Dhabi, UAE 10/2022 - 11/2022

- Upgraded TAMM-OS service efficiency by 15% through frontend development for UAE services.

Software Engineer (Frontend) | [Microtech Solutions S.A.L.](#) | Beirut, Lebanon 01/2019 - 01/2022

- Launched donations web software from scratch using React.js, React Query and Bootstrap.
- Created landing page using Next.js.
- Delivered high-quality frontend solutions within an agile development environment.
- Introduced TypeScript as a first-class part of the front-end codebase.
- Mentored junior developers, conducted code reviews, and supported team growth.
- Contributed with backend, design, QA, and product teams during Agile sprint cycles.

EDUCATION

Bachelor's degree in computer science
[American University of Culture and Education](#) 09/2014 - 06/2018

SKILLS

- **Frontend:** React, Next.js, Vue.js, TypeScript, ES6, HTML5, CSS3, SASS, LESS, GSAP.
- **State Management:** Redux, Redux Saga, Redux Thunk, Context API.
- **API & Data Handling:** REST APIs, GraphQL, Apollo Client, Postman, Thunder Client,.
- **Testing:** Jest, React Testing Library.
- **Build & Automation Tools:** Vite, Webpack, Babel, ESLint.
- **Version Control:** Git, GitHub, GitHub Client.
- **Performance & Quality:** Lighthouse, Code Optimization, Best Practices.
- **UI/UX Collaboration:** Figma, Adobe XD.
- **Development Tools:** Visual Studio Code, Cursor.
- **Project Management & Workflow:** Jira, Agile Development, Sprint Planning.

KEY ACHIEVEMENTS

Enhanced User Security

Achieved 60% decrease in hacking incidents with OTP security.

Improved Payment Efficiency

Boosted transaction success by 15% with optimized payments.

Enhanced Form Validation

Reduced form errors by 40% using schema validation.

LANGUAGES

Arabic (Native / full working proficiency), **English** (Highly proficient in speaking and writing)

CERTIFICATIONS

- Meta Front-End Developer Specialization.
- Complete Vue Developer Bootcamp: Zero to Mastery (Pinia, Vitest)
